

# Jaypee Launches Advanced Light Concrete Machinery & Multipurpose Hoist

Today, contractors and builders are facing major issues at construction sites with inferior quality vibrator machines and multipurpose hoist. Witnessing the need of quality machines, Jaypee launched a new range of Light Concrete machinery including high frequency concrete vibrators, converters, vibrators with inbuilt inverter, and shoulder vibrators/eccentric shaft portable vibrator with its first international brand JAYPEE ITALIA. With 100% Italian innovative technology, Jaypee is manufacturing the best machines of the industry at its factory in Milan, Italy.

### Standard Features of High Frequency Eccentric Vibrators:

- High torque, constant speed electric motor suitable for all type of concrete jobs.
- Special thermoplastic material used for switch housing box.
- Special rubber hose - water and oil resistant.
- Hardened end-cap.
- Spiral wiring available in all pokers.
- Vibrators are compatible with any make converter.
- All vibrators equipped with thermal circuit breakers that prevent the

motor from being damaged due to overheating.

- Heavy-duty roller bearings oil-bath lubricated for high performance and longer life.
- Warranty – 6 months.
- Optional hose length's extension up to 10 meters.
- Optional: rubber head for all diameters.

### Standard Features of Generators for High Frequency Vibrators:

- HV series High Frequency vibrators can be operated with HF series Electric or GT series Engine driven electric converters.
- Suitable to work with all type of high frequency vibrators 42V-200 Hz.
- Available with Honda (Petro) or Lombardini (Diesel) – 2.5 KVA and 5 KVA.
- Sturdy and unique design ensures maintenance free use for longer run.
- Double insulated and thermal protected.
- Warranty 6 months.

Latest in hoisting solutions is Jaypee's MPH series. Being multi-functional and most suitable material lifting equipment available in the industry, the hoist can be used for

carrying concrete, Bricks, Blocks Sand, Glass, Aluminium, PVC pipes and fittings, Doors, windows & Hardware fittings, Sanitaryware & electrical fittings besides carrying finishing materials such tiles, fittings etc to any height at the construction sites. With an optional rebar carrying attachment, users can now also eliminate the need for installation of tower cranes at site.

### Safety Features of MPH series:

- Controlled lowering
- Upper and lower travel limit switches
- Phase failure/Reversal protection
- Drive motor thermal overload protection
- Broken rope safety device/emergency brake
- Slack rope limit switch
- Emergency stop Switch
