

Brand Vision**Jaypee India Ltd.**

“Jaypee in bcindia 2011 Showcasing the best Rebar processing equipments”

Come and experience the new age of advanced and innovative technology with Jaymac range of bar bending and bar cutting machines. Visit Jaypee's stall at BC India2011 (stall No B-19) to experience the best machines of the industry

Radius Bending Machine

Jaymac Heavy-duty Radius Bar Bending Machine will radius up to 35mm rebar.

This machine can form radius without pre-bending bars, it comes with a standard 2-speed drive motor.

Adhering to most safety requirements it is an efficient and quicker bender used for making circular rings.

Bar Shearing Machine

Jaymac Bar Shearing Machine known also as Bar Cutting Machine is robustly built to withstand the stress while shearing of rebar and various forms steel bars.

Durable fast and easy to use, this machine gives a one-shot cutting operation with perfect cutting accuracy thus minimizing the use of labor and long drawn cutting process for single cuts.

This workhorse knows no stop as it can be effectively put to use for a constant round-the-clock Production.

Bar Bending Machine

Jaymac Bar Bending Machine is a semi automatic, durable fast and cost

effective machine, used for bending reinforcement bars and various forms of round bars.

This machine effectively increases the production capacity of your steel yard, minimizing the use of manual labor.

The automatic angle selection permits a precise bend at a preset angle making it one step bending process for various forms of bends and stirrups. Bar Bending Machine is easy to use, the machine can be operated by a layman with minimal experience.

Automatic Stirrup Benders

Reduce labor, reduce scrap, and increase production with KRB Auto

Stirrup Benders. Our line has been redesigned to offer the market a solid, cost effective alternative. Rugged American manufacturing and improved design has given KRB a reliable line of performers in the field.
